Official Docs for the PolarMine XCH Client.

GETTING STARTED

Check out our [Releases](#) page for the latest stable release.

This will be tagged with *Latest Release*.

Match your Operating System with the correct file type:

Operating System	File Extension
Windows	.zip
Ubuntu/Debian	.deb
Mac OS	.dmg

UBUNTU INSTALLATION

Open your favorite terminal and run:

```
curl https://github.com/PolarMine-Pooling/XCH-Client/releases/download/0.1.8.0/PolarMine-
↳XCH-Build.deb
sudo dpkg -i PolarMine-XCH-Client.deb
sudo apt install libyaml-dev
cd /usr/share/polarmine-xch
python3 setup.py
./polarmine-xch --xch
```

WINDOWS INSTALLATION

1. Download the .zip file [here](#).
2. Unzip the .zip file.
3. Run the following commands in Powershell:

```
cd ~/Downloads/PolarMine-XCH-Build/builds/package_windows/  
python setup.py  
.\polarmine-xch --xch
```

Note: if you cannot run Python3 with 'python', try 'python3' instead. If neither work, please install Python [here](#).
